

Surf SOHO

Entry level router for home users

The Surf SOHO is an entry-level router that is secure, reliable, and easy to use. This router will stay with you for the long run.

Stay Connected

The Surf SOHO supports various connection inputs such as USB cellular modem, ethernet and Wi-Fi to provide fast and up-to-date 11ac Wi-Fi connectivity.

Easy to Use, Easy to Manage

With the assistance from InControl 2, configuring and controlling your Peplink devices has never been so easy. Receive instant network insights via push notifications from the Router Utility App to keep up to date on your network status.

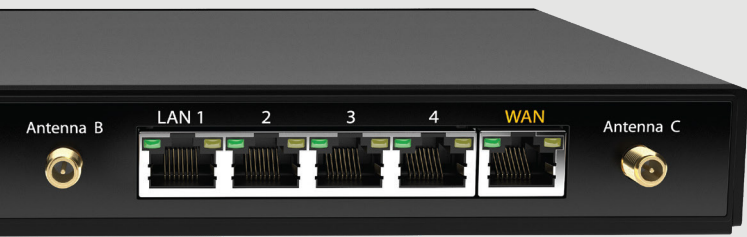

Stay Safe and Secure

Create isolated and secure VLANs from designated ethernet ports or the Wi-Fi network to keep internal traffic separate. Our firmware is designed in-house with regular updates, making it that much more reliable.

Secure Remote User VPN

With a built-in L2TP server, the Surf SOHO allows multiple VPN connections at the same time, keeping sensitive data safe. Peplink's advanced SpeedFusion technologies are also supported, such as SpeedFusion Cloud and PepVPN.

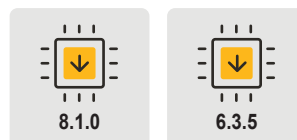

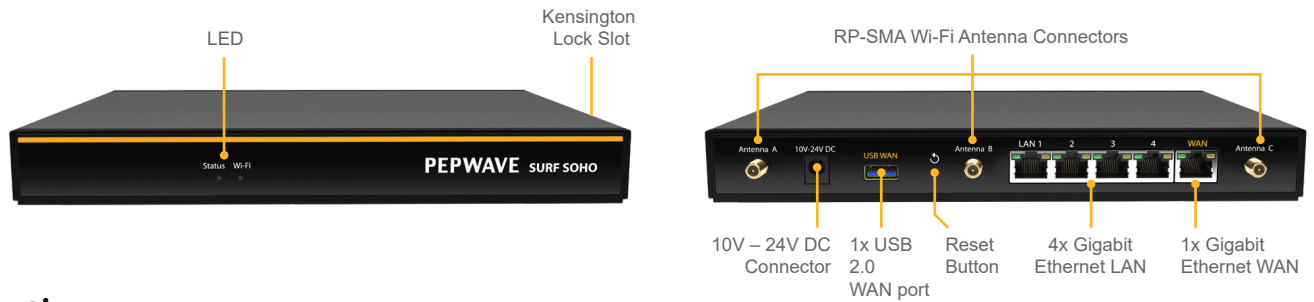

Built to Last

Long term firmware support is also provided in the form of new features, enhancements and bug fixes, empowering the Surf SOHO to do more for a long time.

Multiple Firmwares

The Surf SOHO also maintains two copies of the current firmware and settings. This is especially useful when configuring or upgrading firmware, where if anything goes wrong, you can restore the previous settings with no hassle.

Specifications

Surf SOHO			
WAN Interface	1x 100/1000M Ethernet Port 1x USB 2.0 Interface Wi-Fi as WAN	Power Input	DC Jack: 10V – 24VDC AC Adapter: AC Input 100V – 240V, DC Output 12V, 3A
LAN Interface	4x 100/1000M Ethernet Ports Simultaneous Dual-Band 11ac Wi-Fi AP	Power Consumption	26W (max) with USB WAN 22W (max) without USB WAN
Wi-Fi AP Operating Frequency	2412 – 2472 MHz and 5180 - 5825 MHz	Dimensions	9.17 x 5.6 x 1.18 inch 233 x 142 x 30 mm
Wi-Fi Antenna	3x External Wi-Fi Antenna	Weight	0.86 pounds 388 grams
Recommended Users	1-25	Operating Temperature	-14° – 113°F -10° – 45°C
Router Throughput	120Mbps	Humidity	15% – 95% (non-condensing)
Number of PPTP VPN Users	3	Certifications	FCC, CE, RoHS
Number of PepVPN Peers	2	Warranty	1-Year Limited Warranty
